

# TOUR OPTIONS

---

## TOUR 1

### SATISFY YOUR THIRST

This is no ordinary beer crawl! Lunch will be served at the first brewery where we will have samples of draft beer and take a tour. We'll sample and tour at a distillery and two more breweries before ending with some friendly, but competitive axe throwing.

---

## TOUR 2

### OH, NUTS!

Florence is the hub of the SC Pecan Trail, featuring more than 20 restaurants and retail shops that put the spotlight on pecans. With pecan passport in hand, we'll stop at local restaurants to sample savory and sweet pecan dishes that prove Florence is the nuttiest town around.

## TOUR 3

### KAYAKING REVOLUTIONARY RIVERS (LIMIT OF 30)

This relaxing 2-hour paddle excursion on the SC Revolutionary Rivers National Recreation Trail tells the story of General Francis Marion who drove the British crazy while fighting the War of Independence in this area. He and his small group of men hid in the swampy areas of Lynches River and ambushed them at every chance. The British nicknamed him "The Swamp Fox," because they couldn't keep up with him in the cypress and tupelo swamps.

---

# TOUR 4

## ON OVERDRIVE

Darlington Raceway is called the “Track Too Tough to Tame” for a reason. This tour brings the motorcoach into the infield to get a close-up look at the Darlington Stripe, what most drivers consider a badge of honor. Lunch will be served at a restaurant that drivers frequent while in town, and we’ll tour the Stock Car Museum.

# TOUR 5

## YOU CAN EAT THAT?

Join in on the flower-eating fun at Moore Farms Botanical Garden. As we tour the grounds, we’ll learn about edible flowers and plants with medicinal properties. During lunch, we’ll choose our floral garnishes and finish it up by creating our own desserts.

---

# GOLF

## TRACES GOLF CLUB (\$70)

Voted Best Course in the Pee Dee for three years in a row, Traces Golf Club offers three separate nine-hole courses for playing an enjoyable yet challenging round of South Carolina golf. The Woodlands course, which was originally designed by famed course architect Ron Garl, features both water and sand challenges to put players’ skills to the ultimate test. Though not quite as challenging as the Woodlands course, the Meadows and Creekside courses also feature some water and sand elements, making for their own unique blend of challenges. If you need to warm up before hitting the greens, the well-kept driving range is the perfect spot to get in some practice swings.
